### **Functional Food Ingredients For The Food Industry**

Dr. G's Creations specializes in the design and application of functional ingredient systems to impart the desired texture, yield and taste characteristics to processed food, beverages and dairy products. For over 30 years Dr. G's Creations has helped the food industry improve or launch new food products, improve taste and texture of all types of foods, improve food production processes, increase yield and increase profits. Dr. G's Functional seasoning blends make it easier to process foods with consistent taste, texture and flavor while increasing profits.

### **Custom Seasoning Blends For The Food Industry**

Dr. G's Creations is a global leader in the design and application of custom seasoning blends and flavor systems to impart the desired taste characteristics to your product (food, beverage and dairy). Dr. G's Creations' Chef Quality seasonings, sauces, mixes and cooking products were developed to provide exceptionally good taste. These specialty seasoning items can make food easier to prepare and an instant sensation with consumers. Dr. G's Creations helps restaurants prepare better tasting seasonings, sauces & soups while enjoying higher profits.

### **Technical Food Service Support For The Food Industry**

Functional food systems support is a huge part of Dr. G's consulting effort for the food industry. Their technical staff has served the needs of the North American and the International food industry for many years. Dr. G's Creations is ready to work with your company to select ingredients and custom blended flavor seasonings to perfectly fit your food product. Dr. G's Creations prides itself for assisting the food industry in the development of new tastes and new food products, product enhancement, increased yield and increased profitability. Dr. G's Creations top goal is dedicated service to the food industry and total commitment to their client's success. They combine market intelligence, scientific and technical knowledge with commercial and business perspectives to help you successfully bring your product to market as quickly as possible with high quality and consistent performance.

## Food Analysis Laboratory

Dr. G's Food Analysis Laboratory serves the food industry, offering comprehensive microbiology and chemistry food analysis with personal service and attention to detail. Dr. G's Food Analysis Laboratory can provide services to meet all of your testing and quality assurance needs. Dr. G's Creations' goal is simple... become your first choice as an Ingredient Supplier, Functional Food Advisor and Food Analysis Laboratory by giving you superior levels of technical support and outstanding customer.

Cost is a key factor to maintain a competitive edge in the food industry, and Dr. G's functional solutions provide higher profits through product improvement, consistent process, higher yields and improved food taste and quality.
